

KOKOMO OPALESCENT GLASS – FACTORY TOURS

KOG has been in the business of manufacturing colored sheet glass at this location since 1888. We employ the same techniques, and some of the same machinery, that were used at our beginning. Very little has changed here since then. The plant tour will give you and understanding of the manufacturing process, an appreciation of the company’s history, and hopefully a passion for glass art and our industrial heritage.

This is an active factory, producing thousands of square feet of the world’s most beautiful glass each day. There are dangers present in any manufacturing facility. So to make the tour as safe and enjoyable as possible, we require that you agree to adhere to certain safety rules and policies before the tour begins.

- 1.) Stay with the group at all times.
- 2.) High heels and open toed shoes are not permitted. Shoes should have a thick sole.
- 3.) Watch your step as you walk through the plant.
- 4.) Do not touch glass. It is sharp and often hot.
- 5.) Protective eyewear is required and will be provided. Keep glasses on at all times while in the plant.
- 6.) Your guide will provide a safety talk before the tour begins. Pay close attention and follow his/ her instructions.
- 7.) If you are sensitive to dust or heat, you should not take this tour.
- 8.) Tours can last up to two hours. If you are unable to be on your feet for this amount of time, we do offer a wheel chair for guest use. If you use a walker you are welcome to use it, as long as you are able to operate it on uneven surfaces.
- 9.) You are encouraged to ask questions. But for the benefit of all guests, please be quiet while the tour guide is speaking.
- 10.) If you are bringing children on the tour, you are responsible to make sure that they are following each of these rules.
- 11.) Signed parental permission is required for each child attending the tour, including those here as part of school or other youth organization field trips.

ASSUMPTION OF RISK AND RELEASE FORM

The undersigned desires to participate in a tour of the manufacturing facility of the Kokomo Opalescent Glass Company (KOG) and understands that there are certain risks of injury or property damage involved. These include the movement of ladders, molten glass, lift trucks, extreme heat, rough floors, dust, sharp glass, variations in lighting, and confined observation areas, among others.

In consideration of being permitted by KOG to take the plant tour, the undersigned does hereby assume all responsibility for any and all risk of personal injury or personal property damage that may occur to the undersigned (or any child on the tour under the care or control of the undersigned) in connection with such plant tour. And the undersigned does hereby release and discharge KOG, its owners, employees, and agents from all claims, demands, or causes of action, present or future, resulting from or arising out of the participation of the undersigned (or the aforesaid child) in such plant tour.

The undersigned has read and understands the foregoing assumption of risk agreement and release this _____ day of _____, 20_____.
